1. Executive Summary & Problem-Solution Fit

Lokator.NG is a production-ready, location-based service marketplace web application built specifically for the Nigerian market. It addresses the critical friction in how Nigerian households and businesses hire skilled tradespeople (electricians, plumbers, beauty/nail techs, mechanics, tailors, carpenters, cleaners, etc.).

■ The Core Problem in Nigeria: - Consumers rely on slow, uncertain word-of-mouth or risky roadside searches. - Emergency home/car repairs take hours or days to find reliable technicians. - Unpredictable pricing, zero transparency, and rampant fears of theft or unqualified artisans. - Traditional directories charge heavy middleman commissions that discourage both sides.	■ The Lokator.NG Solution: GPS Proximity Ranking: Shows verified providers nearest to the user in real-time. Direct 1-Click Connection: WhatsApp chat link and instant phone dial with zero middleman fee. NIN Identity Verification: Trust badges verified against government ID databases. 100% Free for Customers: Creates massive organic search volume and viral word-of-mouth.
--	---

2. Technical & Feature Capabilities

- Cinematic 9-Scene Hero Video Scroll:** Full-screen vertical video sequence showcasing core trades (electrician, plumber, nail tech, tailor, auto mechanic, carpenter, cleaner, community). Built with IntersectionObserver and CSS scroll-snap.
- Geolocation Radius Engine:** Native browser GPS coordinates calculate distances accurately, placing the closest verified provider at the top of search results.
- PostgreSQL & Supabase Architecture:** Row Level Security (RLS), dynamic reviews, verified artisan portfolios, and instant response-time indicators.
- Mobile-First Ultra-Lightweight Build:** Optimized for low-latency 3G/4G networks across standard Android and iOS devices in Nigeria.

3. Commercial Monetization Strategy (6 Revenue Streams)

Lokator.NG operates a **Freemium Marketplace + SaaS Model**. By keeping customer discovery 100% free, we build massive search traffic, then monetize provider visibility, credibility badges, premium business tools, and corporate partnerships.

Revenue Stream	Price Point	Target Segment	Value Proposition Delivered
1. Verified Pro Tier	■3,000 / mo (■30,000/yr)	Individual Artisans & Solo Tradespeople	• Verified Green Badge ✓ • 2x Search Ranking Boost • NIN-Verified Trust Seal • 3x more customer inquiries
2. Premium Pro Tier	■8,000 / mo (■80,000/yr)	Established Workshops, Salons & Master Pros	• Top Featured Spotlight • Photo Portfolio Gallery • Monthly Analytics Dashboard • Priority Job Lead Alerts
3. One-Time NIN Vetting Fee	■2,500 – ■5,000 (One-time)	All Registering Providers	Covers official ID verification, manual background check, and issuing official Lokator Verified Credential.
4. LGA / Category Boosts	■1,500 / 7 days	Artisans Promoting Local Specials	Pins the provider to the #1 sponsored slot in high-demand areas (e.g. Lekki Phase 1, Ikeja GRA, Wuse 2).
5. Emergency Dispatch Fee	■500 – ■1,500 per emergency	Night / Weekend Urgent Callouts	Guaranteed 15-minute emergency artisan response for burst pipes, electrical short circuits, and vehicle breakdown.
6. B2B Estate Facilities Portals	■50,000 – ■250k /month per estate	Gated Estates & Facility Managers	Curated, vetted artisan pool with security clearance SLAs for residents associations (e.g. 1004, Magodo, Chevron).

■ **Realistic 12-Month Financial Model (Lagos + Abuja Base):**

Assuming 10,000 active registered providers within Year 1:

• **Verified Tier** (15% conversion = 1,500 @ ■3,000/mo): ■4,500,000 / month

• **Premium Tier** (5% conversion = 500 @ ■8,000/mo): ■4,000,000 / month

• **Search Boosts & ID Vetting Fees:** ■1,500,000 / month

• **Total Projected Monthly Recurring Revenue (MRR):** ■10,000,000+ / month (~■120,000,000 Annual Run-Rate) with over 80% gross margins.

4. Supply Acquisition: Onboarding 5,000+ Artisans

A hyperlocal marketplace wins on supply density. The strategy to recruit artisans rapidly with minimal cash burn:

■ Trade Union Partnerships Partner with artisan associations (Mechanics Union, Tailors Guild, Electricians Association). Offer executive leaders and first 50 members free 3-month Verified Pro status in exchange for bulk member registration.	■ Field Scout Street Teams Deploy youth reps with smartphones into artisan clusters (Ladipo, Computer Village, Tejuosho, Wuse). Onboard artisans on-the-spot in under 3 minutes, paying field agents ■500 per verified profile.
■ WhatsApp Viral Referral Built-in incentive: <i>'Refer 3 fellow master artisans to Lokator, unlock 1 month of FREE Verified Badge (worth ■3,000).'</i> Triggers rapid viral peer loops in trade groups.	■ Zero-Friction Freemium Entry Basic listing is 100% free. Once an artisan gets their first 2 real customer calls through Lokator, the system automatically prompts the upgrade to 2x their incoming jobs.

5. Demand Acquisition: Driving Millions of Customer Searches

■ TikTok & Reels Relatable Skits Create viral skits on relatable Nigerian repair nightmares (e.g. <i>'When your AC stops working in traffic'</i> or <i>'When the carpenter goes missing 2 days to your wedding'</i>), ending with Lokator GPS solution.	■ Local Intent Search SEO Dominate hyper-specific high-intent keywords: <i>'emergency plumber Lekki', 'car mechanic near Ikeja', 'nail technician Victoria Island'</i>, landing directly on pre-filtered results.
■ Estate WhatsApp Channels Pitch Lokator to residential estate executives (Magodo, Gwarinpa, Lekki Phase 1) as the official security-verified standard for bringing outside workmen through estate gates.	■ Point-of-Sale QR Code Flyers Place QR code counter stickers at paint shops, electrical hardware stores, auto spare parts markets: <i>'Need someone to install this? Scan to find the nearest verified artisan.'</i>

6. 90-Day Go-To-Market Execution Plan

Phase & Window	Target Goals	Key Tactical Milestones
Phase 1: Seed & Launch (Days 1 – 30)	500 Seed Artisans 5 core Lagos hubs 5,000 searches	- Onboard 500 artisans across Surulere, Ikeja, Lekki, Yaba, VI. - Connect Paystack / Flutterwave automated subscription recurring billing. - Launch social channels with the 9 cinematic video reels.
Phase 2: Growth & Viral (Days 31 – 60)	2,500 Providers - Lagos + Abuja active 35,000 searches	- Deploy WhatsApp Provider Referral engine. - Run localized Google Search Ads for emergency repair terms. - Secure first 3 residential estate community endorsements.
Phase 3: Monetize & Scale (Days 61 – 90)	5,000+ Providers ■2.5M Initial MRR - Port Harcourt Launch	- Convert first 500 paying Verified & Premium subscribers. - Launch B2B Facilities Management Pilot. - Expand directory coverage to Ibadan, Port Harcourt, and Kano.

7. Valuation & Strategic Acquisition / Exit Potential

If the goal is to build, scale, and sell Lokator.NG to a major African fintech, super-app, or global marketplace fund (e.g. Moniepoint, OPay, Piggyvest, Eden Life, Jumia, PalmPay):

Maturity Stage	Key Marketplace Metrics	Annual Run-Rate (ARR)	Projected Acquisition Valuation
Seed / Traction	3,000 Providers · 25k Monthly Searches	■18,000,000 (~\$12,000 USD)	\$150,000 – \$350,000 USD (6x–10x ARR)
Growth Stage	15,000 Providers · 150k Monthly Searches	■120,000,000 (~\$80,000 USD)	\$600,000 – \$1,200,000 USD (8x–12x ARR)
National Dominance	50,000+ Providers in 36 States	■450,000,000 (~\$300,000 USD)	\$2,500,000 – \$5,000,000 USD (Strategic M&A;)

■ The Immediate 3-Step Execution Plan:

1. **Activate Payment Gateway:** Integrate Paystack / Flutterwave to automate the ■3,000/mo & ■8,000/mo subscription checkouts.

2. **Deploy 5 Field Agents:** Collect the first 500 artisan profiles with photos and NIN verification in Lagos.

3. **Launch Hyperlocal Ad Push:** Run targeted Meta / Google ads highlighting the 1-click WhatsApp connection.
